 Part-time / Full-time

KEY QUALITIES

- Logical and systemic mindset; excellent troubleshooting and debugging skills.
- High autonomy and rapid learning ability for new technologies.
- Attention to detail: driven to understand the "why" beyond the "how".
- Proven perseverance and resourcefulness in complex technical environments.

LANGUAGES

French

Native language

English

Fluent - Excellent reading & writing

EDUCATION & TRAINING

Programmer Analyst : Computer Science 03/2025 - 10/2026

Collège CDI - Laval, Québec

Transcript available upon request.

D.E.S. : High School Diploma completed

01/1996 - 05/2001

PROFESSIONAL SUMMARY

Currently completing my training as a Programmer Analyst at CDI College, I combine a solid mastery of programming languages with over 10 years of technical experience in electromechanics and logical debugging. My ability to understand a system in its entirety, from hardware to software, enables me to quickly analyze issues and propose logical solutions. Versatile and highly autonomous, I am ready to make an immediate impact on your development projects.

TECHNICAL SKILLS

Languages: C#, Java, Python, Kotlin, JavaScript, PHP, HTML5, CSS

Databases: SQL, MySQL, MongoDB, DynamoDB, NoSQL

Web Dev, APIs & Frameworks: Node.js, Express, jQuery, JSON, XML

Infrastructure & Tools: Windows and Linux environments, AWS (EC2, RDS, Lambda, CloudFormation), Visual Studio, Android Studio, PowerShell

PROFESSIONAL EXPERIENCE

Office Clerk, 11/2025 - Present

Jean Coutu - Montréal, QC - Temporary Job

- Digitization, filing of supporting documents, and retrieving information from databases for various departments.
- Data and timecard management for 70 to 80 employees with variable schedules.
- Basic accounting tasks: cash register verification, generating account statements, and processing claims.

Operator - Metal/Plastic/Vinyl Cutting, 01/2022 - 10/2025

3 yrs 10 mos

Enseignes Dominion inc.

- Configuration of control software.
- Machine preparation and setup, parts assembly, and tool mounting.
- CNC Maintenance: Checking fluid levels (oil, coolant) and performing preventive maintenance.
- Execution of assigned tasks following established procedures and instructions.

Electrical Wiring Technician/Electrician, 02/2011 - 09/2022

11 yrs 8 mos

Capmatic Ltée.

- Startup and logical troubleshooting (using a multimeter) of complex automated machines; real-time analysis of I/O states.
- Wiring of digital and analog PLC inputs/outputs, HMIs, sensors, and configuration of communication buses.
- Reading and interpreting electrical schematics and functional diagrams.
